Wow! This handsome stag will evoke gasps of wonder! The huge set of antlers requires suspension from a ceiling point as they are separate to the stag sculpture. Could also be used on a light trail or in any outdoor setting. He stands an impressive 5 meters tall, is festooned with hundreds of cool white lights and comes from the renowned MK Illumination animal sculpture portfolio.

Junior Giraffe

A truly beautiful MK sculpture, this is the smaller of the two featured above. Our junior giraffe is still an impressive 4.2 meters tall and will delight all ages in a wildlife setting or animal park.
