

Summer LOVE

SELECTION 2024-2025

We make people happy.

Summer
LOVE
BY MK ILLUMINATION

SUMMER 2024

A joyfull summer

We are delighted to present you with a colourful array of summery designs and motifs to help you transform your public spaces into vibrant, lively and joyful places. After all, a good atmosphere makes it easier for people to feel good.

Our 2024 summer range showcases brand-new concepts as well as evergreen favourites. From floral and fabulous to wild and uninhibited, we have ideas that will light up spaces of all shapes and sizes, literally and figuratively.

You will notice that there is a particular emphasis on our many new organic motifs, which we bring to life in our own production facilities. There are good reasons for this: not only are they visually striking, but they also offer a natural look and are produced using sustainable materials.

Yours,

Marie Mark

We
make
people
happy

„Laughter is a
sunbeam of
the soul.“

Thomas Mann

Turning everyday spaces into atmosphere-filled spaces sounds easy, but ultimately, this is an activity best left to the experts. Here at MK Illumination, we offer decades of practical experience in place-making. By applying the so-called "happiness formula", our design teams have mastered the art of using light and design to transform streets, squares and interiors.

Let's work together to fill your spaces with colour, emotion and vitality to create environments where visitors can enjoy unforgettable moments of happiness.

Yours,

Klaus & Marie Mark , Thomas Mark

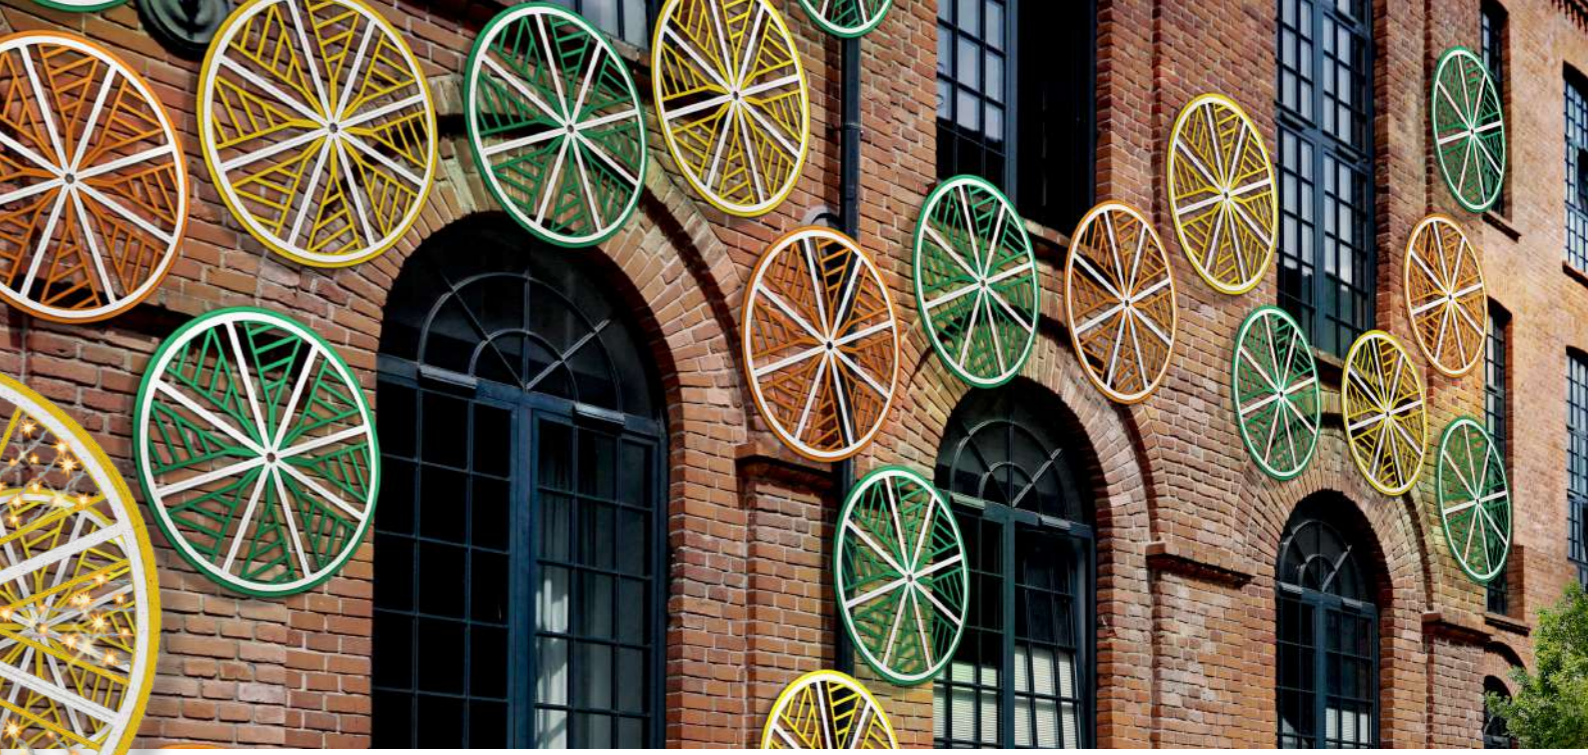

NATURALLY SUMMER

WITH ORGANICS

With our Organic collection we have developed a sustainable product line that appeals to people, not only because of its materials and durability but also with its eye-catching look-and-feel. To create a summer at its best in spaces we have created a variety of joyful motifs especially for the hot season.

ORGANIC PRO Citrus

MATERIAL COMPOSITION: WOOD & POLYMER

WOOD

from PEFC-certified forestry.
Wood content min. 30%
from wood felled
within a radius of 100 km
from our supplier.

POLYMER

we have recently started to
switch to bio-based feedstock
under the mass balance
approach instead of virgin
plastic. However, changing over
the entire production will take
some time.

The change over the entire production will be done by the end of 2024.
REganic is made of 60% recycled polymers.

WHAT MAKES OUR ORGANIC COLLECTION SO UNIQUE:

MADE IN EUROPE
Handmade in MK's own facility.
Each piece is unique.

THE NATURAL SURFACE OPTICS
of the organic motifs are striking. Organics
also have a wonderful effect by day and by
night.

DURABLE
The motifs have a long lifespan – they are
wind and weather-proof as well as fungus
resistant. This reduces their CO2 footprint.

FLOWER POWER

A lavish display of flowers that captures the essence of summer and sprinkles good vibes wherever they appear. Our designers have been inspired by the natural beauty of lush, flower-studded meadows to create floral arrangements that go far beyond traditional flower balls.

This year, we are delighted to be able to offer floral garlands and arches, complete with aluminium structures, in addition to our ever-popular flower balls. These can be used as opulent décor for summer photo points, and individual motifs and designs can be combined creatively to transform any location into a modern-day Garden of Eden.

Wild Flower Ball

photo: Lagunen Center Bergen | Norway | MK Illumination

WILD FLOWER BALLS

Our FLOWER BALLS are a classic. Now we're expanding the possibilities with a new, even more lifelike version. The modern look turns sterile interiors into summery warm environments.

Can be combined with the matching garland and many other of our motifs

Available in 3 different sizes

GOOD TO KNOW

A SUMMER NIGHT'S DREAM

Warm-white decorative lighting is the perfect accompaniment to balmy summer nights. Our string lights (E23 | E14) conjure up memories of 1950s movie sets: the nostalgic summers of a bygone era. Use our glow sticks to provide lighting accents for evening meanders through green spaces and parks. And all of our light sculptures can be used as illuminated art that brightens up any space, and that do double-duty as photo points that keep fond memories alive long after the summer has faded.

— String Lite® E14

Visualisierung als Inspiration | MK Illumination

STRING LITE® E14

Trendy light chains with bulbs create a pleasant atmosphere in any environment. Wherever they create a separate area in a room, act as a contour light on a restaurant terrace or accentuate the architecture of a building - the chains of lights have an impressive effect but at the same time blend subtly into their surroundings.

Kites

photo: Linköping | Schweden | MKK Illumination

KITES

Colour your childhood dream with our flying kites. Our kites bring playful colours to your streets, to your space, to your life. Whether narrow shopping alleys or wide streets, the kites open up the sky. They work well as a single object, but the impact when they are displayed together in a group creates the biggest smiles. That generate great recognition value and encourages visitors to take out their mobile phones and capture the scene.
