ILLUMINATION

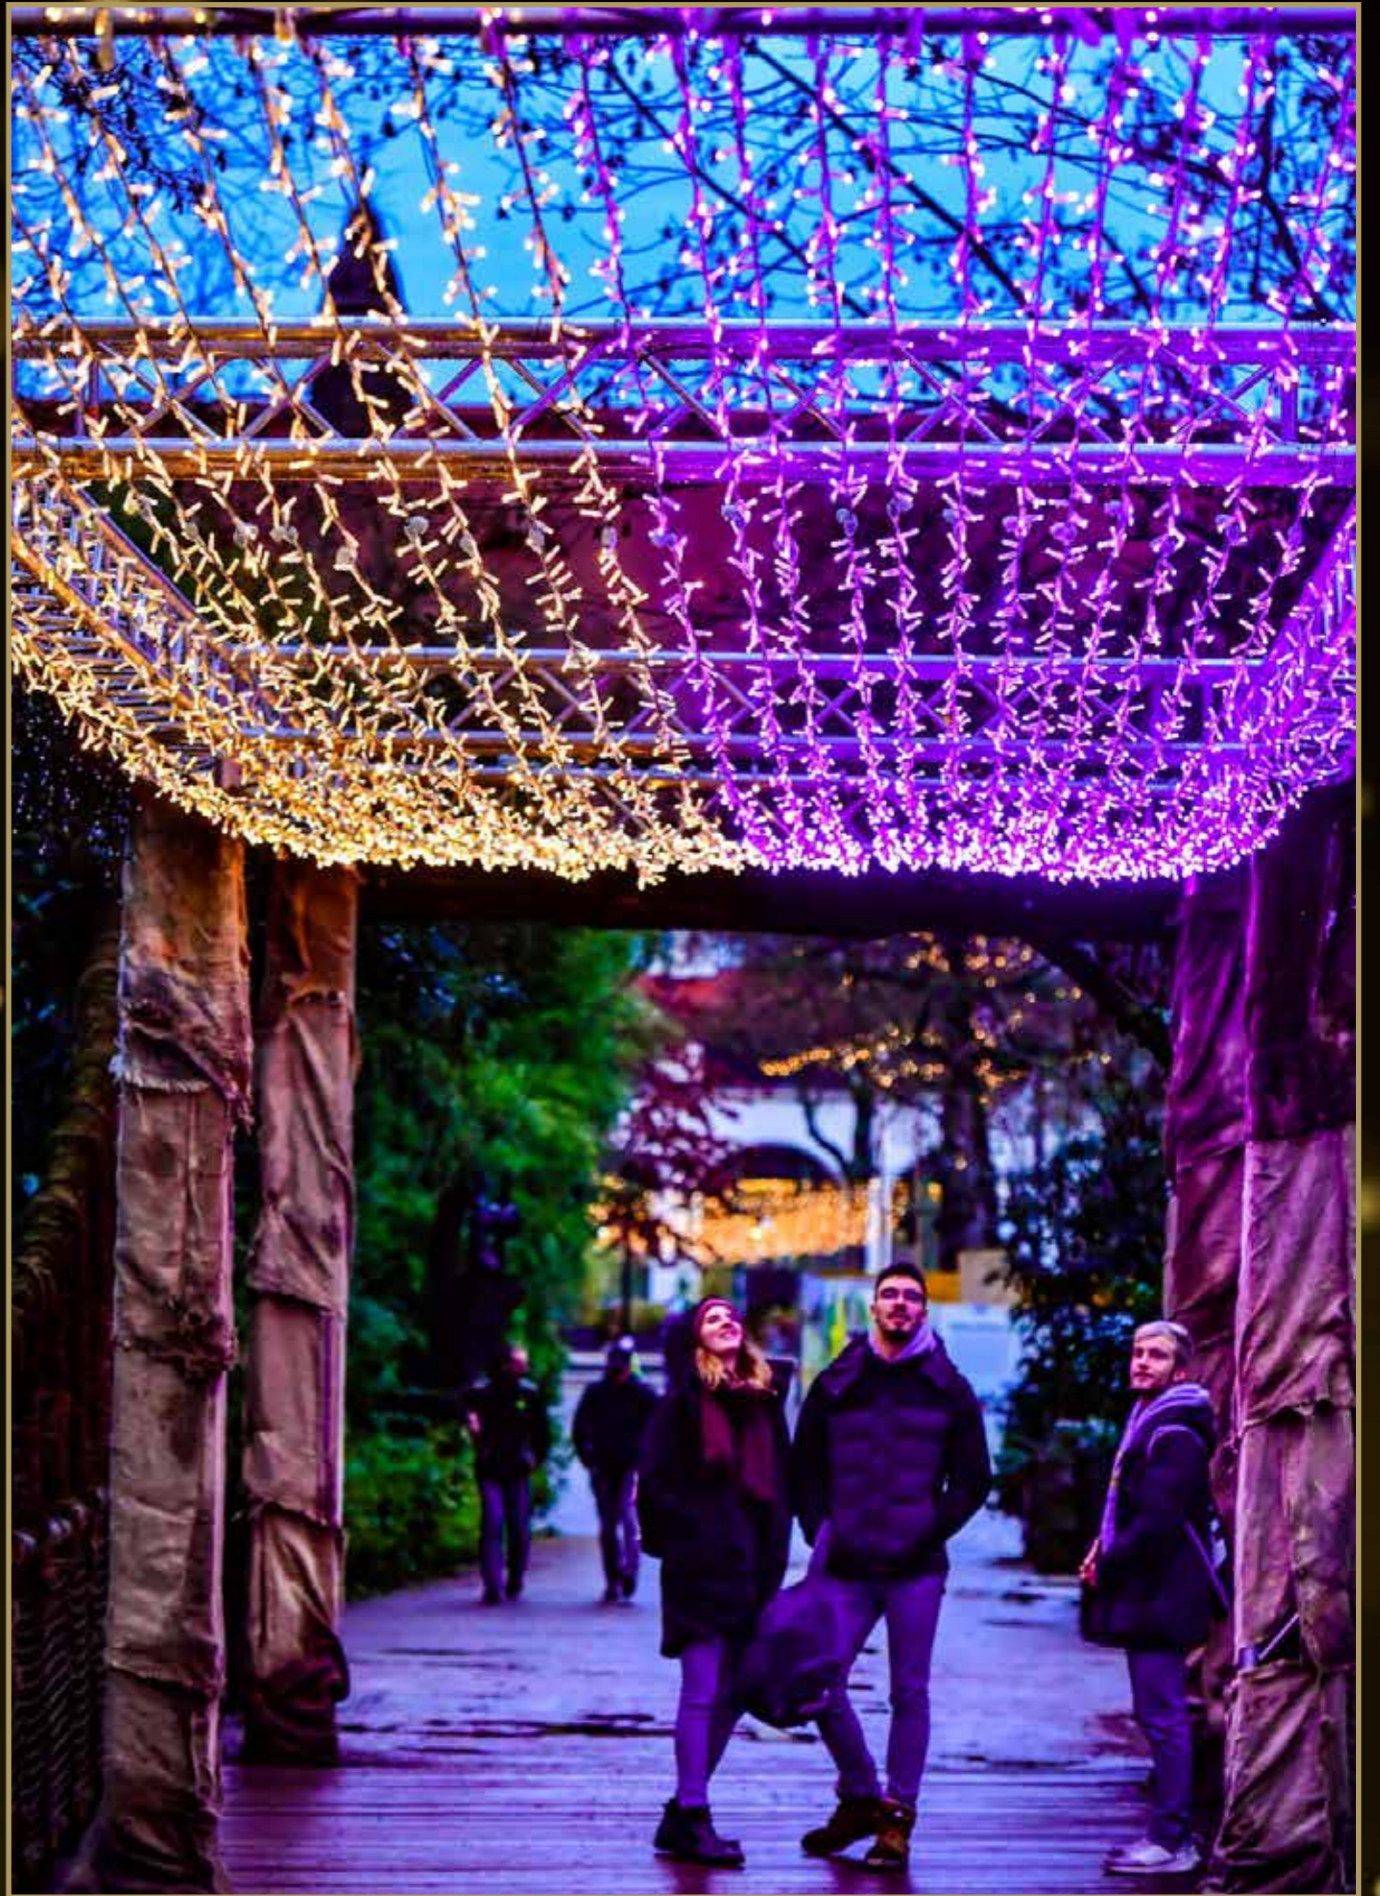

Premium High Quality Outdoor & Indoor Christmas Lights & Chains

Our lighting products essentially comprises of our base selection of light chains including string, drape, ice and mesh lights. With a combination of LED's you can build up your lighting concept to include animated effects, motifs and even sculptures. All our products are built to last and have an IP67 rating and our QuickFix system.

Energy Reducing LEDs with Longer Lasting Luminosity

Our Premium ECO String Lights consume 50% less energy than standard LED Light Strings. We use our String lights in all our Christmas Lighting and Displays meaning our products will save energy and reduce your costs. Additionally, tests indicate that compared with conventional LEDs, the Premium LED shows minimal loss of luminance.

| String Lite

Use on trees, buildings and even to create a ceiling of lights. Available in a variety of different lengths and LED colours. For extra safety we offer 36v should your display within touching distance.

Magic String Lite

Unlike other String Lite products, which have single LEDs spaced evenly along the chain, Magic String Lite has clusters of 4 LEDs in a cross formation, crowding more light points in a shorter cable length. With so many LEDs, when viewed from a distance it creates the illusion of a continuous line perfect for contour lighting.
