## WITH DAY & NIGHT TIME APPEAL

Make sure your decorations shine no matter what time of day it is. We believe in the power of creating memorable shopping experiences. Our products will not only enchant your customers but also leave them with a positive and lasting impression of your shopping centre or retail park.

# *REDEFINE THE FESTIVE LANDSCAPE*

Our service is a celebration of creativity, tradition and design excellence that complements and illuminate high streets and store fronts with timeless elegance.

CADOGAN

# *UNIQUE AND CAPTIVATING DESIGNS*

We specialise in creating enchanting Christmas experiences that go beyond traditional lighting displays. Our passion is to illuminate city and town centres, squares, public spaces and parks with the magic of the Christmas. From stunning lamp post and across street motifs to eye-catching light sculptures and even outdoor tree lighting, our bespoke creations redefine the festive landscape.

- / Install reports, client portal
- / MK Partnership Charter (service level agreements)
- / Dismantle
- / Transport to and from site
- / Storage

# *SUSTAINABILITY* & OUR COMMITMENT

We have systems in place to manage recyclables and energy as well as to reduce CO2 emissions, especially in packaging and production processes.

## *LONG-LIFE PRODUCTS LEAD TO LOWER CO2 EMISSIONS*

We have the longest-lasting products on the market, as confirmed once again by sustainability consultants Denkstatt. This saves resources because the highest CO2 emissions occur in production. We source a considerable part of the energy for this from clean sources.

## *ORGANIC MATERIAL*

We are pioneers in the use of biomaterial. Since we began using organic materials in 2012, our range of products in our organic range has continued to expand, culminating in our current ORGANIC PRO series. We are constantly researching and innovating in this area.

## *LOCAL AND REGIONAL FOCUS*

We believe that we have a role to play in creating secure jobs and contributing to the vitality of the regions in which we work. With that in mind, we actively partner with regional suppliers to make a positive difference in the area.

## *LOW ENERGY CONSUMPTION*

Since 2008, our lighting products have been 100% LED, with 80% less energy consumption when compared to classic incandescent lamps. Our Eco-Premium LED is designed to save consumers another 50% of energy.

## *BUY SMART*

We were the first in the market to offer a quality model, offering users guarantees of the safety, legality, efficiency and maximum sustainability of our products.

## *PACKAGING*

We already use environmentally friendly packaging and are continually working on new ways to reduce our packaging material in our quest to avoid it entirely.

## LET US HELP YOU TO CALCULATE YOUR ENERGY CONSUMPTION

Would you like to calculate the energy consumption of your existing or planned lighting installations and learn about potential savings? Get in touch with us – we'd be delighted to help you.
