

2026 LOOK BOOK

*Branded & Tailor-made
Light Sculptures*

*Where Timeless Elegance
Meets Christmas Magic*

*Redefine The Ordinary and
Go Beyond The Imagination*

Manchester Manchester City Council

For Christmas, Manchester City Centre was transformed into a striking festive destination, combining bold new designs with thoughtful nods to the city's rich industrial heritage and iconic identity.

At the heart of the display were a series of brand-new, bespoke light sculptures, designed and produced exclusively for the city. Towering at over 4 metres tall, the Industrial Reindeer and Snowman sculptures took inspiration from Manchester's industrial past. We introduced a stunning 10-metre Honeycomb Christmas Tree, alongside a matching Honeycomb Walkthrough Archway — both inspired by the worker bee, Manchester's enduring symbol of unity and hard work.

Across the wider city centre, we delivered extensive tree lighting, complemented by all-new street lighting designs. Honeycomb-inspired lamp post motifs lined the streets, while across-street motifs added scale and animation overhead.

London Television Centre

Lights Camera Action!! Our Christmas installation at the Television Centre in London is taking centre stage!! Our beautifully designed 10 metre walkthrough tree shines brightly outside the iconic building, creating an entrance to the festive marquee. We also added animated projection stars on the wall behind the marquee and tree lighting throughout.

Another stand out Christmas lighting project in the capital, combining immersive design, bold scale and festive impact.

*Classic Garlands Meet
Bold, Modern Colour*

London

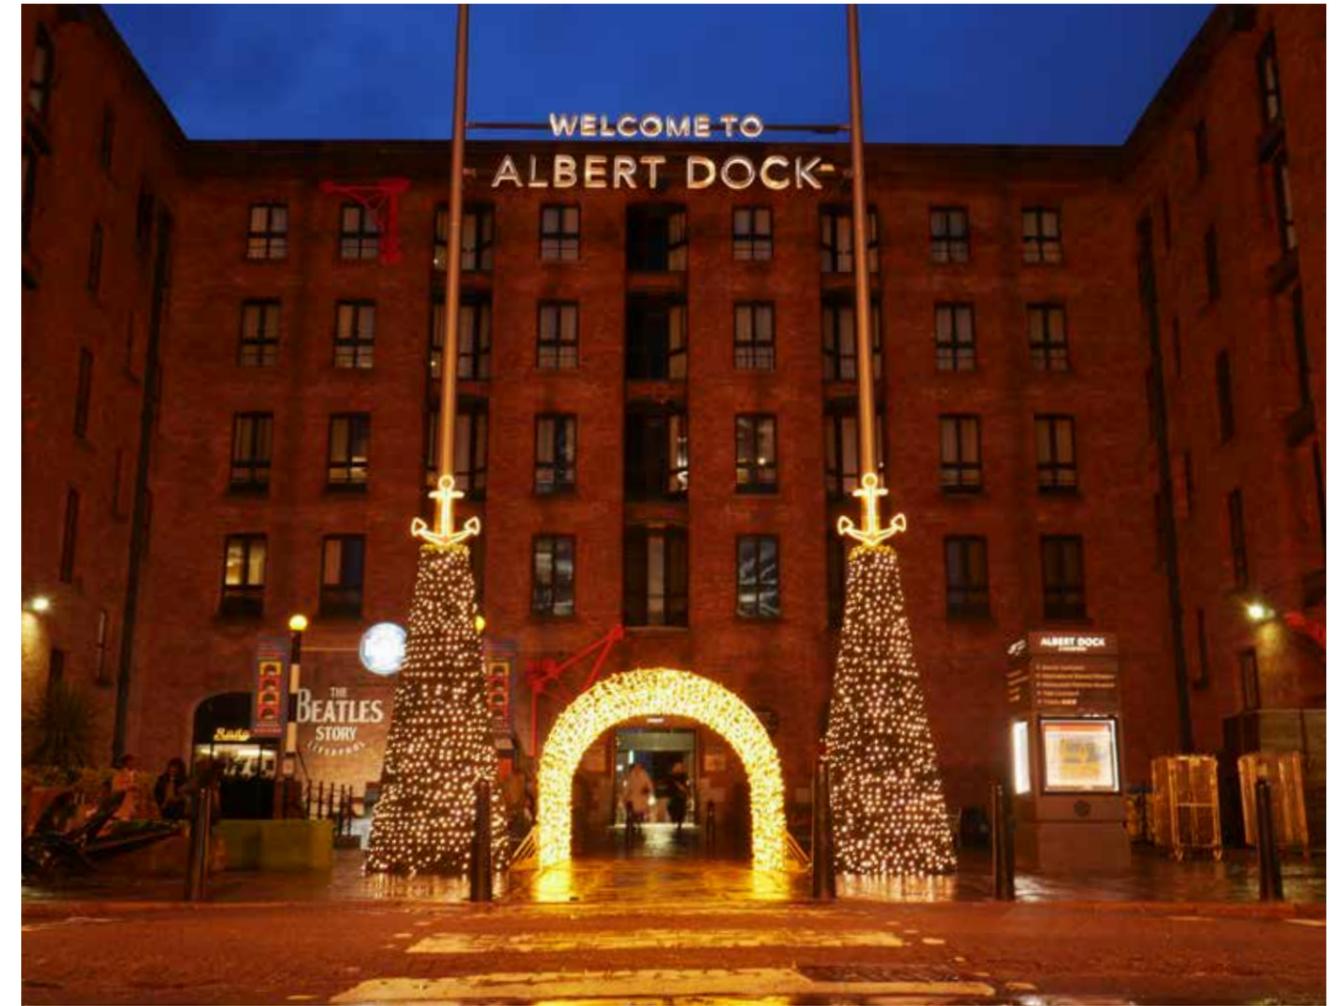

Moco Museum

Our 'Artful Elegance' Christmas lighting scheme at the Moco Museum in London. Classic garlands meet bold, modern colour to celebrate creativity and brand identity. Lush evergreen foliage frames the museum's architecture, while oversized pink baubles add a fresh, contemporary twist that reflects the institution's vibrant spirit. The result is a refined balance of heritage and modern artistry..... a festive installation that feels both timeless and uniquely expressive.

Dressed with bold pink baubles echoing Moco's brand colour, the graceful garland transforms into a contemporary festive showcase of colour and creativity

Liverpool Royal Albert Dock

Last year's design introduces animated RGB illuminated Liver Birds, two beautiful giant natural Christmas trees, an illuminated walkthrough tunnel of light, enhanced tree lighting, street motifs, dual lit ceiling of light and a new illuminated archway welcoming visitors with a festive "Very Merry Christmas from Albert Dock". Large gold baubles light the inner quays enhancing the restaurants and dining experience.

We've been lighting up this iconic Liverpool destination for years and this might be our brightest yet.

Leeds
 St Johns
 Shopping Centre

Our "Timeless Celebration" scheme at St Johns Leeds Shopping Centre! We created a classical blend of rich ruby reds and shimmering golden lights against lush greenery. The centre featured beautiful hanging illuminated reindeer's with a variety of illuminated and shiny red baubles and drape lights. Wreaths and Garlands throughout the centre giving the classical festive feel and ambiance.

In the centre we featured a beautiful photo opportunity Santa seat with nutcrackers and trees perfect for families and friends to make festive memories. Above the entrance we designed a stunning garland with red bows framing the entrance perfectly.

*Highlighting & Contouring
Beautiful Architecture*

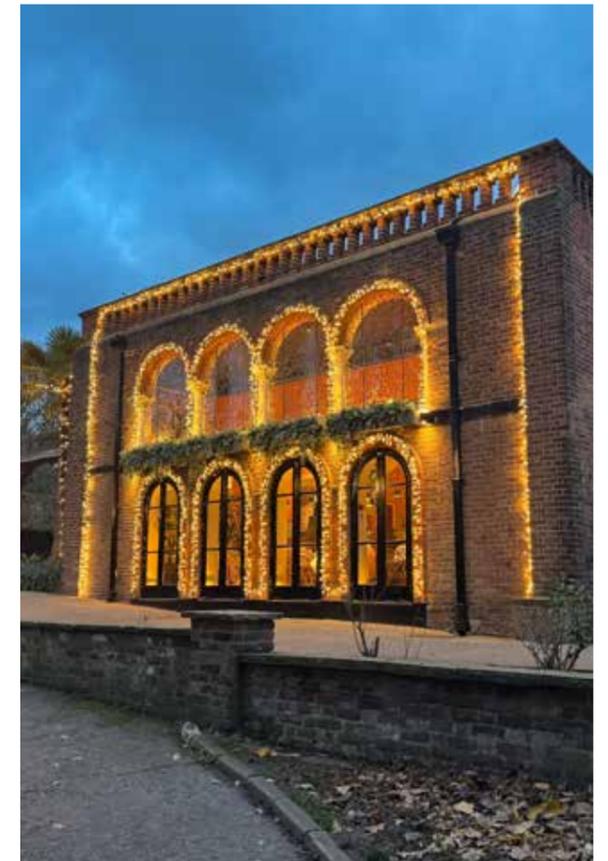

London

The Belvedere Restaurant

There's something truly special about lighting beautiful architecture the right way

At The Belvedere Restaurant in Holland Park London, we used our Magic String Light to gently trace and enhance every detail of this stunning historic building. From framing the arched windows and entrance, to contouring the roof line and wrapping the palm trees, the result is a warm, magical glow that highlights the restaurant's character without overpowering it.

Using clusters of four LEDs along the cable, Magic String Light creates a soft, enchanting sparkle... perfect for heritage buildings and elegant venues like this.

*A Centrepiece That
Draws Crowds*

London

The Broadwalk Centre

Our magnificent two-tier sparkling chandelier takes centre stage in the main square, radiating a shimmering golden glow. High-gloss, matte and glitter-finish baubles, intertwined with warm white lights, creates a sophisticated and contemporary festive look that flows seamlessly throughout the malls.

A giant 4 metre tree and smaller trees, adorned with coordinating red, gold, and silver baubles and illuminated by warm golden-white lights throughout the centre.

Exterior Magic String Lighting around the building, car park tree lighting and a dazzling main entrance with a 2 metre illuminated golden meridian!

Rochdale Riverside Retail & Leisure

Who says Christmas has to be green and red? This playful and colourful scheme is one of our favourites this year! With a canopy of pink, white and golden stars creating a stary night effect. A striking cool white illuminated "Merry Christmas" sign surrounded with pink stars welcomes visitors to the Shopping Centre. With a dazzling giant pink heart installation offers the perfect festive photo opportunity, sure to spark social media engagement. Its vibrant glow and playful design create a memorable moment for visitors of all ages.

In the heart of the centre we installed a towering 6 metre lush green Christmas tree, adorned with radiant pink stars and shimmering pink baubles creating a striking centrepiece.

London

Ealing Broadway Shopping Centre

Say Hello to Ealing Broadway's latest addition..... standing six metres tall, this walk-through snowman takes centre stage in the centres new Christmas display this year. Dressed in a green scarf and black top hat and illuminated with glowing lights, it brings a warm, festive charm to the shopping area! And a perfect photo opportunity for visitors.

With golden and green stars brighten the entrance, casting a warm, welcoming festive glow. Delightful cascading golden illuminated wave motifs extend the Christmassy atmosphere throughout the centre. Festoon lighting in the streets combined with stars adds an extra touch of festive and classic ambiance.

Manchester Bents Garden Centre

Beautiful images of our products at Bents Garden & Home. Their Alice in the Hidden Light Garden Light Adventure looked amazing!! The event ran until over the Christmas period creating a perfect festive and fun activity over the holidays!

Christmas Light Trails are a great way to drive more traffic and revenue over the Christmas period. Designed to be enjoyed by all ages, making them perfect for family outings.

*A Sparkling Welcome
to Festive Luxury*

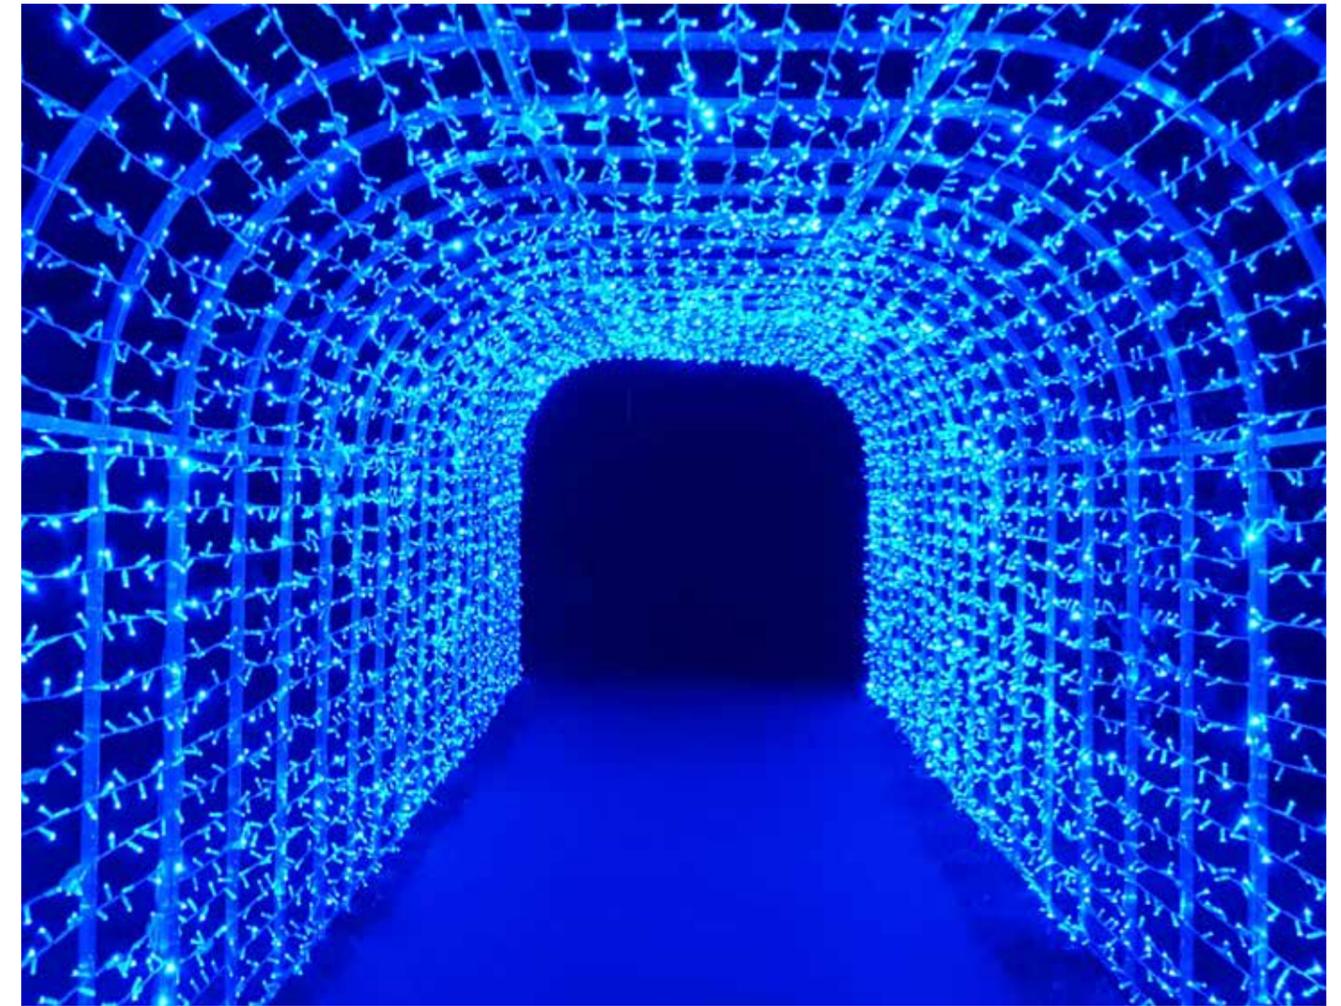

Glasgow Argyll Arcade

Classical and traditional garlands and wreaths to highlight and complement the beautiful arcade on Buchanan Street in the heart of Glasgow. We used string lights and lit trees to enhance the entrance which made the arcade beautifully stand out on one of Glasgow's busiest shopping streets.

From concept and design, to manufacturing, storage and installation... We work closely with our clients ensuring we bring their vision to life at Christmas.

*Beneath a Starry
Christmas Sky*

Product Spotlight

Ceiling of Lights & Light Tunnels

Experience the Magic of our Light Tunnels and Ceiling of Lights perfect for public parks, light trails, shopping centres and retail spaces

MK Illumination's light tunnels are known for their elegance and the ambiance they create. They consist of a series of suspended or arched lights that form a tunnel-like structure. These tunnels are often used to guide visitors through an enchanting journey of light, whether it's in shopping centres, public squares, or special events. Customizable and tailored to match specific colours and themes.

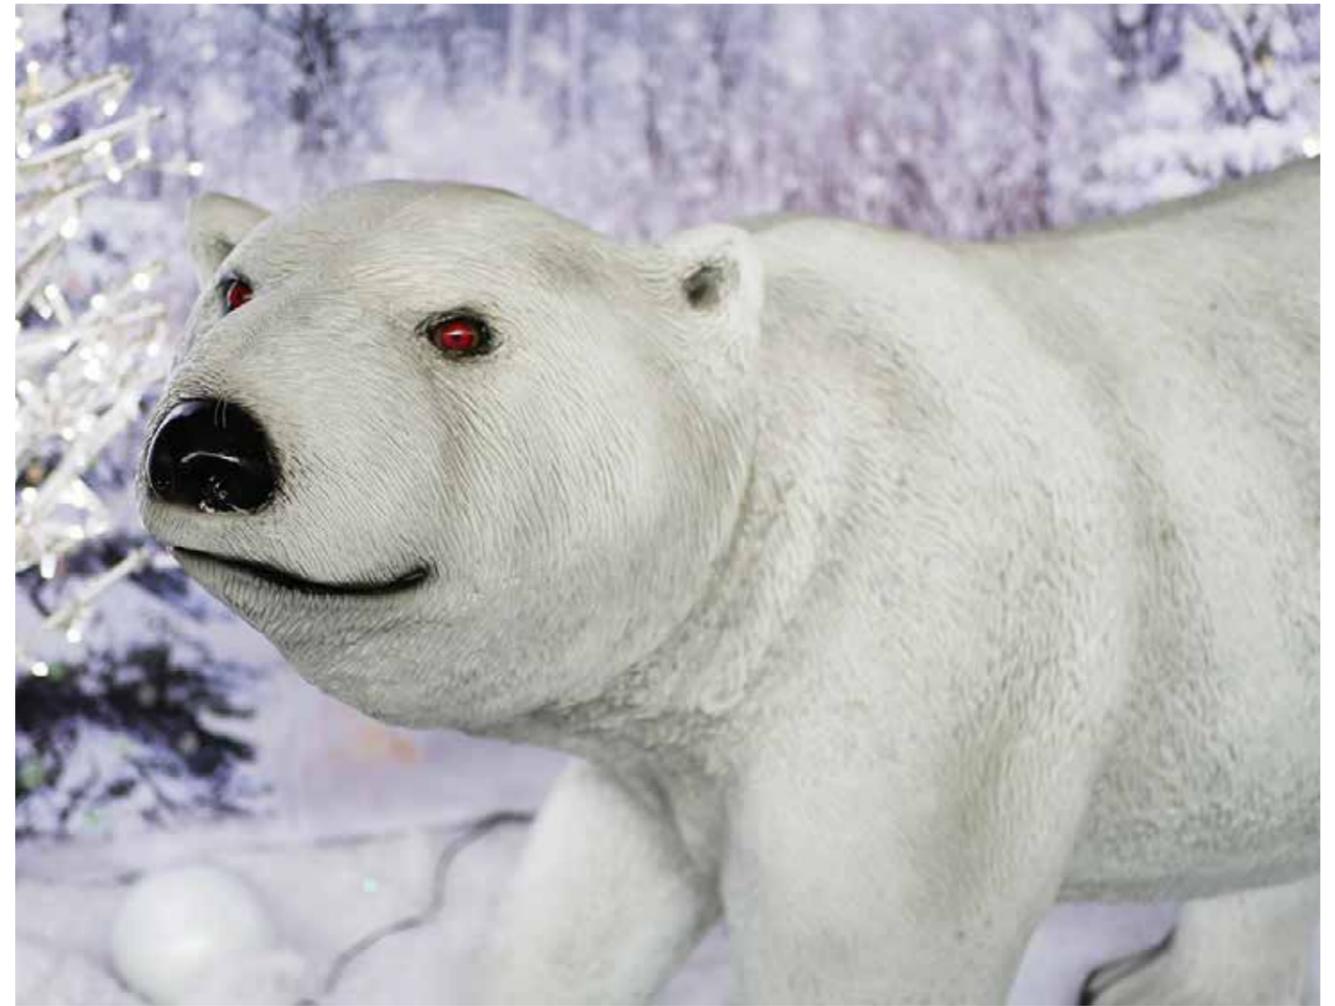

A ceiling of lights from MK Illumination is like a starry night brought indoors or outdoors. These installations feature an array of suspended lights that create a breathtaking canopy of illumination like a starry twinkly sky.

*Add Character & Fun
with Christmas Props*

CHRISTMAS AT
WIMPOLE

Product Spotlight

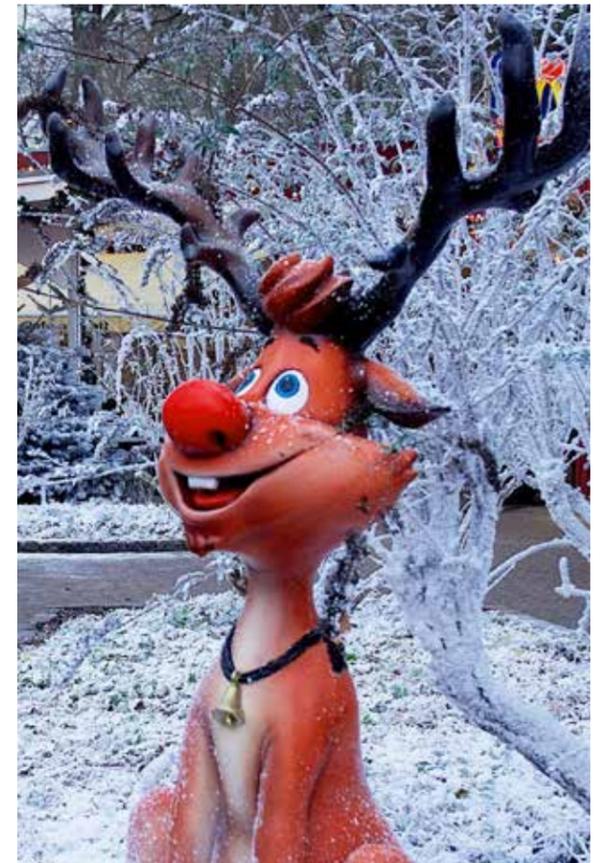

Christmas Fibreglass Props

Our charming festive fibreglass range adds character and fun to your Christmas displays, capturing the imagination of all ages. Perfect for shopping centres, retail spaces, venues and festive events

Crafted from high-quality fibreglass, our Christmas props are built to withstand outdoor conditions, ensuring longevity and durability.

Providing the perfect backdrop for family photos and social media moments, our photo op props not only create a festive atmosphere but also encourage customer engagement and social sharing.

*Evoke A Sense Of Wonder
With Light Trails*

Events

Light Trails

Create an unforgettable experience for your visitors this Christmas with our breathtaking light sculptures and custom-designed light trails. Whether you're a theme park, farm attraction, event venue, or city council, our bespoke sculptures and lighting solutions are guaranteed to captivate audiences, increase footfall, and boost revenue.

Our light trails are more than just a walk through illuminated paths...they're immersive journeys filled with wonder and excitement. From winding paths wrapped in glowing string lights to awe-inspiring light tunnels and sculptures, we'll help you create a truly magical adventure for your customers and visitors.

Social Media

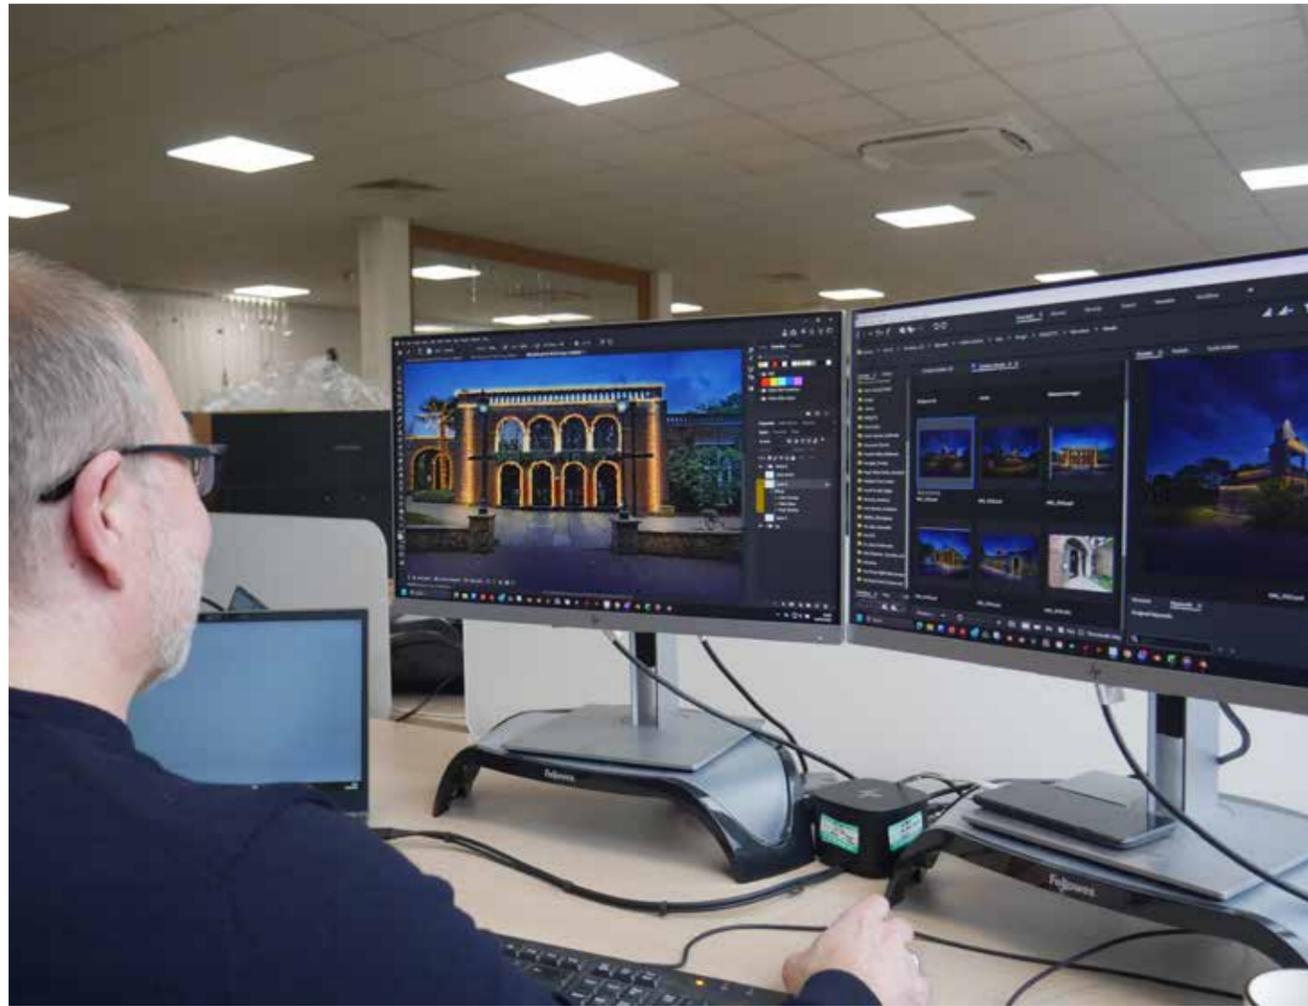

Designed to Be Shared

Today's visitors don't just experience a destination... they capture it, share it and amplify it. Striking lighting installations and interactive photo opportunities naturally encourage guests to stop, engage, and create their own memorable moments, turning your space into a social media backdrop.

Every photo taken and shared extends your reach far beyond the physical location, generating organic visibility, online conversations, and valuable user-generated content. From city centres and retail destinations to hospitality venues and public spaces, our designs help create experiences people want to talk about and share.

Festive installations become more than decoration; they become marketing moments.

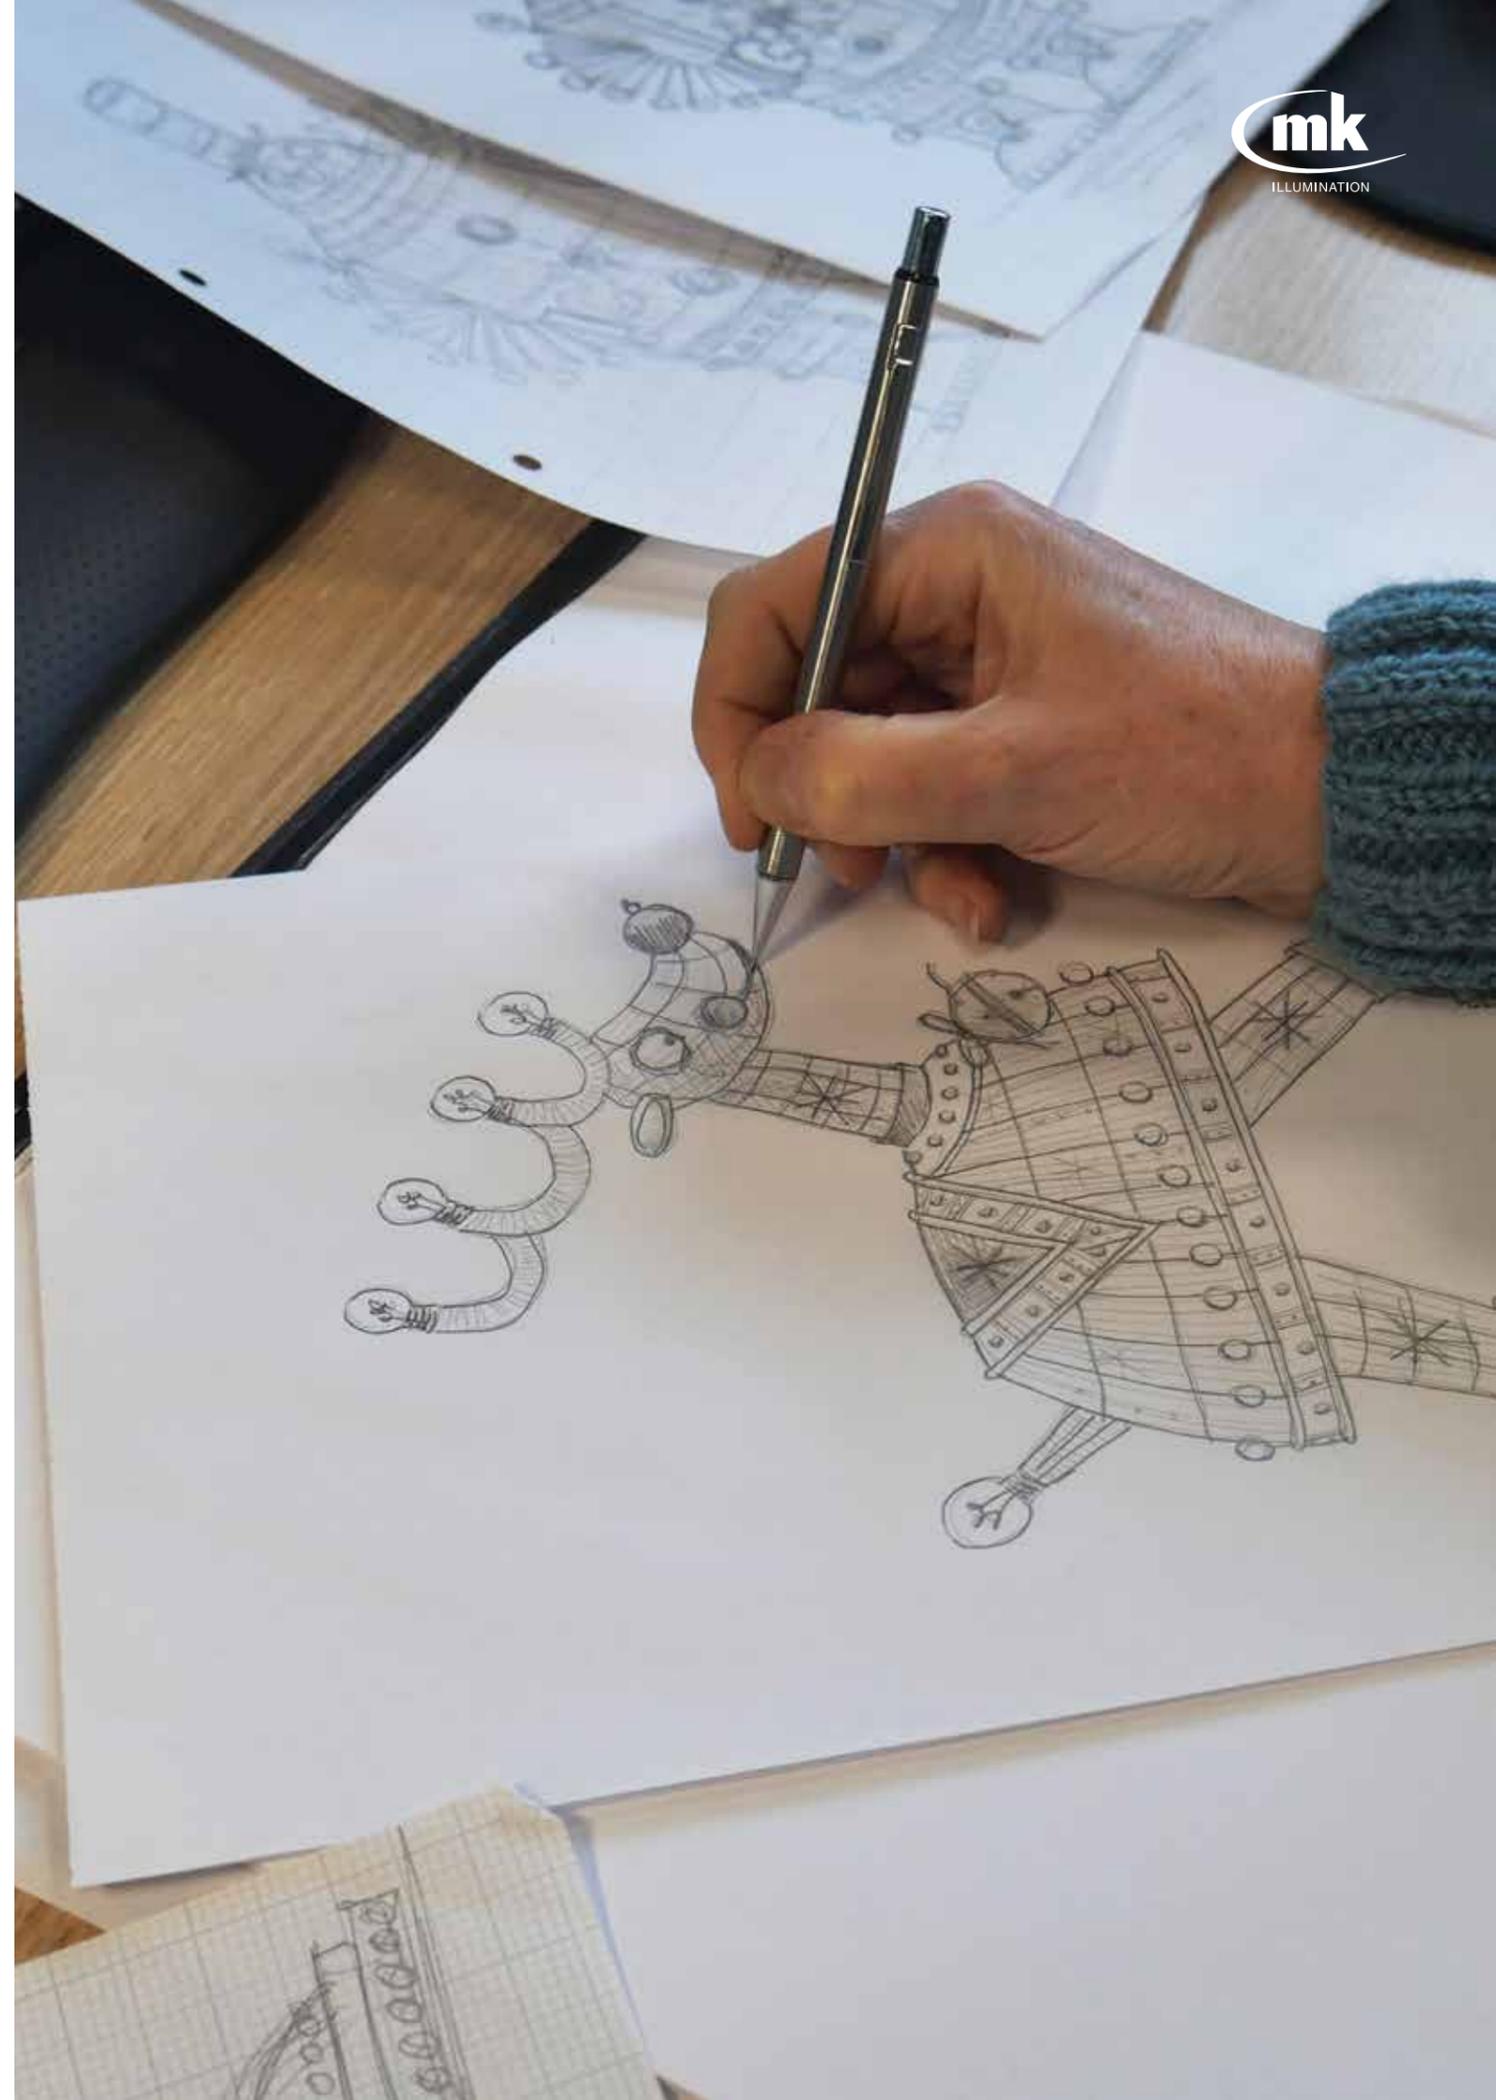

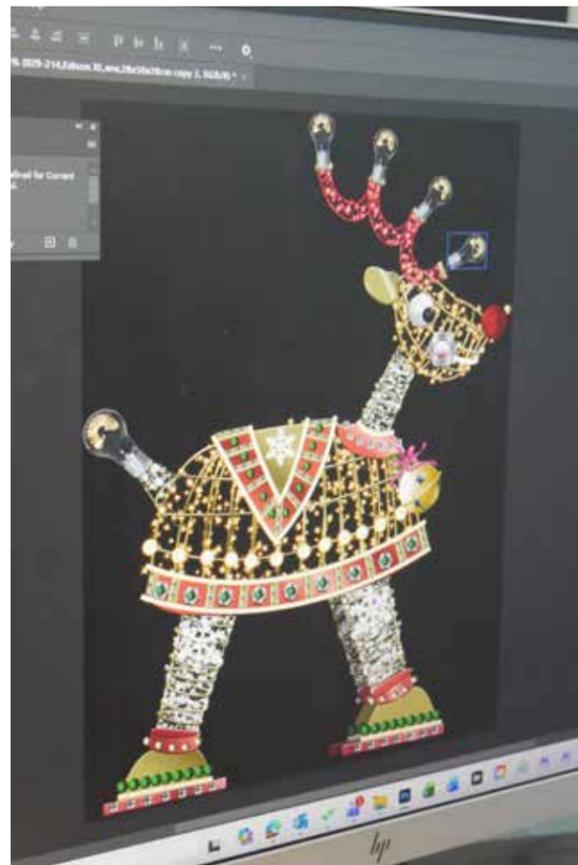

Illuminating the Imagination Christmas Lighting Design

Every project starts with an idea. A concept on paper. A vision of what a space could become at Christmas.

Our team of designers are committed to pushing the boundaries of artistic expression, creating unique and bespoke lighting designs that will captivate your audience.

From concept sketches and digital design through to manufacture, installation and storage.

- Refurbishment Of Scheme
- All H&S Documentation – Certifications, Rams
- Site Surveys & Pre Install Visits
- Install Reports, Client Portal
- MK Partnership Charter (Service Level Agreements)

Sustainability & Our Commitment

Low-Carbon Aluminium

BENEFITS ALUMINIUM:

- + structure & stability
- + long-lasting material
- + good recycling possibilities
- high CO₂ emissions in production phase

BENEFITS LOW-CARBON ALUMINIUM:

- + same benefits as aluminium
- + European supplier
- + **uses 1/4 of the global climate emission average for the industry**

80%
of CO₂ emissions are generated during production, making durability a key criterion.

A study by external experts from Viennese environmental consultants denkstatt confirms:

MK light chains have the smallest CO₂ footprint due to their long service life.

Materials Why & What?

The choice of materials we use have an impact on the environment and our **carbon footprint**. That is why we always aim to select the best material for each and every product.

ORGANIC

made of biobased material

Material composition:

WOOD – from PEFC-certified forestry. Wood content min. 30%, from wood felled within a radius of 100 km from our supplier.

PLASTIC – we have recently started to switch to bio-based feedstock under the Mass Balance Approach instead of virgin plastic. However, changing over the entire production will take some time.

Low Energy Consumption

Since 2008, our lighting products have been 100% LED, with 80% less energy consumption when compared to classic incandescent lamps. Our Eco-Premium LED is designed to save consumers another 50% of energy.

Buy Smart

We were the first in the market to offer a quality model, offering users guarantees of the safety, legality, efficiency and maximum sustainability of our products.
